 Maaj-Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer skilled in MERN Stack. Built around 10+ projects using web technology and cover multiple libraries and frameworks. Google Cloud and AWS certified.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, JavaScript, SQL
- Technologies & Frameworks:** HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, REST APIs, Machine learning, NumPy, Pandas.
- Technologies & Tools:** MongoDB, Git, GitHub, Figma, Linux, Docker

PROJECTS

MechHelp – Online Mechanic Services | Live Demo

(2025)

- Developed a full-stack MERN platform that connects stranded vehicle users with nearby mechanics in real-time, improving emergency response efficiency.
- Implemented live geolocation tracking (React Leaflet) with a 50 km search radius, enabling users to find available mechanics instantly. Successfully tested with **25+ mechanics and 50+ users** during pilot deployment.
- Technologies:** React.js, Node.js, Express.js, MongoDB, React Leaflet, JWT.

NewsBlog – Real-time AI-Powered News & Blogging Platform | GitHub

(2024)

- Engineered a full-stack MERN application that delivers curated daily news and enables community-driven blogging with real-time social interactions.
- Designed and deployed interactive features including post creation, comments, likes, bookmarks, and a follower system, powered by Socket.IO for instant updates. Implemented features like post creation, comments, likes, bookmarks, and follower system with Socket.IO for real-time updates.
- Integrated AI-driven blog generation (OpenAI/Gemini API) to allow users to create content from text prompts and images, enhancing engagement and creativity.
- Technologies:** React.js, Node.js, Express.js, MongoDB, Socket.IO, Gemini API

EXPERIENCE

Frontend Developer | BlueStock Fintech

Jan 2025 – Mar 2025

- Developed the **IPO dashboard** and implemented **frontend authentication** features including user sign-in and sign-up using React.js.
- Worked at a **stock market-focused fintech company** offering real-time insights and dashboards for IPOs and investment opportunities.

Python Training | Malleable Softwares Pvt

May 2022 – Jul 2022

- Completed training in **Python development**, covering all fundamental concepts and core programming constructs.

Backend Developer | InternPe Pvt

Mar 2024 – Apr 2024

- Worked as a backend developer, responsible for creating **authentication APIs** including login, registration, and token handling.

EDUCATION

DKTE Society's Textile and Engineering Institute, Ichalkaranji

2023 – Present

Bachelor of Technology in Computer Science and Engineering

8.25 CGPA

Sant Gajanan Maharaj Rural Polytechnic

2020 – 2023

Diploma in Computer Engineering

89.09%

Rosary English High School Ajara

2019 – 2020

10th Grade (SSC)

86.60%

CERTIFICATIONS & ACHIEVEMENTS

- Competitive Programming:** Solved 300+ coding problems on **LeetCode**.
- Internal Hackathon Winner:** Secured 1st place in the **Internal Smart India Hackathon**. (2024)
- Cloud Computing Expertise:** Earned Google **Cloud Storage** Skill Badge. (2024)
- AWS Cloud:** Achieved **AWS Cloud** Technical Essentials from Amazon Web Services. (2025)
- State Level Selection:** Selected in the state level **MSBTE** project competition (2023)
